- ***Make sure to use the email you registered with***
- Enter the access code sent to your email
- You should now have access to the event
- *Note: Android version is 5.1 or later is required to run the app*

Using the forum app promotes sustainability by reducing resources needed for printing, and the Forum app will allow us to easily provide updates throughout the event.

Be sure that you turn on notifications for the app once you download it. These notifications will alert Forum attendees to relevant information each day, such as bus schedules, networking opportunities, and more.

Attendees must be logged in to the app to access all information. Click on the silhouette image at the top of the app home page to log in and to view or update your profile. You can also add your photo so that fellow attendees will recognize you.

In addition to being your one stop for the schedule and information about “all things Forum,” the app will provide you with full access to the materials from every session that you can download on-site or once you have returned home.

For those who need continuing education credits for maintaining their credentials, completing the surveys in the app after each session you attend will be the way to document your attendance at the session.

Remember to visit our [Forum attendees information page](#) for updated details and tips as you are preparing to attend the Forum. We can't wait to see you very soon!
